Packet Federal LLC

CAPABILITY STATEMENT

We design, build, and upgrade networks.

Network engineering for federal and commercial organizations: routing and switching, wireless and RF, firewalls, and datacenter networking. Based in Coeur d'Alene, Idaho. Serving the Inland Northwest, including the Spokane and Fairchild AFB region, with remote and on-site delivery nationwide.

CORE COMPETENCIES

- **Routing and switching** Enterprise networks from branch office to datacenter, upgrades and refreshes.
- **Wireless and RF** Wi-Fi site surveys, controller architecture, high-density deployments, point-to-point radio links.
- **Network security** Firewall deployment and hardening, segmentation, secure configuration baselines.
- **Datacenter networking** Buildouts and platform deployment.
- **Assessment and design** Infrastructure assessments, technology roadmaps, vendor-neutral guidance.
- **Hardware** Value-added reseller of network hardware.

KEY PERSONNEL EXPERIENCE*

100+	200+	50+	300+	25+
routers	switches	firewalls	access points	radio links

Hundreds of network upgrades for small and mid-size organizations. Three ground-up datacenter buildouts.

Private superyacht, lead engineer, 2025

Full network refresh: SD-WAN with automatic failover across four Starlink and two cellular links, a FortiGate high-availability pair, 12 switches and 35 access points, with wireless moved to cloud management.

Multi-site engineering firm, SD-WAN lead, 2023

Replaced carrier layer 2 with Fortinet SD-WAN and BGP across four engineering offices and two datacenters, main and redundant: eight firewalls with an HA pair per datacenter, 30 access points and 10 switches for over 100 users.

Founder's military service 13 years of combined active duty and Reserve service in the U.S. Air Force, including seven years on active duty. AWACS Radar Systems Journeyman, with deployments supporting OEF and OIF. Commissioned officer, separated as First Lieutenant.

***** Figures and representative work reflect the founder's personal delivery record across 5+ years of commercial network engineering. Packet Federal LLC was founded in 2026.

DIFFERENTIATORS

Founder-led delivery

Every engagement is executed or directly overseen by the CEO, Daniel Khateeb. Direct line to the decision-maker: no gatekeepers, no ticket queues.

Local and on site

An hour from Fairchild AFB and the Spokane VA, on site within hours across the Inland Northwest. Surveys and cutovers without a travel day on the schedule.

Documentation delivered

Every engagement ends with as-built diagrams, configuration baselines and test reports, so the next engineer, or the next contract, starts from an accurate record.

Tell us about your network.
